INDEX

Eugenics Quarterly, Volume 9, 1962

ABO and MN blood groups with special reference to prezygotic selection, selective mechanisms operating on, 36–43; ABO blood groups and diseases, associations between, 36–38; ABO incompatibility as a major cause of prenatal and perinatal selection, 38
Alliance for Progress, 231–236
Anastasi, Anne, 170
Asia, 44

Back, Kurt B., 169
Baroff, George S., 171
"Bart's" or Fessas and Papaspyrou hemoglobin, the significance of, 49–53
Bennett, J. H., 59
Blindness, 12, 13; red and green color, 131–146
Blood groups and disease, 36–38; and gastric cancer, 44; MN, 36–43; (prezygotic) selection in relation to, 36–43; selective mechanisms operating on, 36–43
"Blood Groups, Secretor Phenomenon, and Gastric Cancer in Various Ethnic Groups," 44
BOOK REVIEWS: *Fertility Differences in a Modernizing Country. A Survey of Lebanese Couples*, 103–105; *Evolution Above the Species Level*, 105–108; *Genetics for Medical Students*, 108-109; *Theories of Economic Growth*, 109–111; *Genes, Enzymes and Inherited Diseases*, 111; *Family Growth in Metropolitan America*, 168–169; *Trends in Social Science*, 169; *Adaptation*, 169–170; *Psychological Testing*, 170–171; *Fertility and Survival—Population Problems from Malthus to Mao Tse-Tung*, 241–244; *Mirage of Health*, 244; *Population Control, The Imminent World Crisis*, 244–246.
Brief Reports, 95–97, 228–236
